

# INSTALLATION INSTRUCTION FOR 3618

**WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER .**  
**AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.**

READ AND SAVE THESE INSTRUCTIONS

## PREPARATION

1. Shut off the power at the circuit breaker box and, if necessary, remove the old fixture, including mounting hardware.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Take care not to lose any parts necessary for installation.

## ASSEMBLING THE FIXTURE(Fig.1)

3. Install glass panels (R, T) onto metal frame (Q), and secure with the screws (S).
4. Determine desired hanging height and thread rods (L, M, N, O) to couplings (P). Then thread loops (K) onto rods (L). Pass wires carefully through each rod, loop (K) and loop (I) of canopy (G). Use quick links (J) to connect loops (K) and loops (I).

## MOUNTING THE FIXTURE (Fig.1)

5. Position mounting plate (B) through the fixing holes onto ceiling and make marks, drill pilot holes for wood screws (C) into ceiling, then insert plastic anchors (A) (Size: 067-1) into holes.
6. Secure mounting plate (B) to junction box with junction box screws (E) (Size: #8-32\*0.6"L), then secure junction box with wood screws (C) (Size: 8#x1"L) into plastic anchors (A) in the ceiling.
7. The support cable is provided to support the weight of fixture while wiring. Attach hook (F) on the end of support cable to mounting plate (B). Carefully allow support cable to support weight of fixture while wiring.

## CONNECTING THE WIRES (Fig.2)

10. Connect the electrical wires as shown in Fig.2, making sure that all wire connectors are secured. If your junction box has a ground wire (green or bare copper), connect ground wires to it. Otherwise, connect ground wire directly to mounting plate (A) using green screw provided.
11. After wires are connected, tuck them neatly inside junction box.

## COMPLETING THE INSTALLATION (Fig. 1)

12. Raise canopy (G) to mounting plate (B), and secure with cap nuts (H).
11. Install (12) twelve candelabra base bulbs up to 60 watts each or CFL or LED equivalent (not included) in accordance with the fixture specification. **(DO NOT EXCEED THE SPECIFIED WATTAGE!) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)**

Fig.1

Fig.2

Your installation is now complete. Return power to the junction box and test the fixture.

**a. Hardware Bag:**

- A. Plastic Anchors \*2
- B. Mounting Plate \*1
- C. Wood Screws \*2
- E. Junction Box Screws \*2
- G. Canopy \*1
- H. Cap Nuts \*2
- J. Quick Link \*2
- K. Loop \*2

**b. Hardware Bag:**

- M, N, O. Rod 12" \*3
- L Rod 6" \*1
