INSTALLATION INSTRUCTIONS

Item#73172-66 (New. 2019/12/14)

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

MOUNTING THE FIXTURE (Fig. 1)

- 1. Shut of power at the fuse box or circuit breaker box and remove the old fixture including the mounting hardware.
- 2. Carefully unpack your new fixture and lay out all the parts in a clean area. Take care not to misplace any small parts necessary for installation.
- 3. Thread screws (A) into the pre-drilled holes in the circular strap (B) spaced the same distance apart as the holes in the back plate of the fixture body (D).
- 4. Attach the circular strap (B) to the junction box using mounting screws (C) (Size: #8-32N*L0.5"). The side of the circular strap marked "GND" must face out.

CONNECTING THE WIRES (Fig. 2)

5. Connect the electrical wires as shown in figure 2, making sure that all wire connectors are secured. If your outlet has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the circular strap (B) using the green screw provided. After the wires are connected, tuck them carefully inside the junction box.

COMPLETING THE INSTALLATION (Fig. 1)

- 6. Place the fixture body (D) onto the mounting screws (A) and secure with knurled knobs (E).
- 7. To prevent moisture from entering the outlet box and causing a short, use clear caulking (i.e. Indoor/Outdoor Silicone Sealant) to outline the outside of fixture back-plate (D) where it meets the wall leaving a space at bottom to allow moisture a means to escape (Fig.3).
- Install (1) one medium base bulb (F) up to 100 watts or CFL or LED equivalent (not included) in accordance with the fixture specification — DO NOT EXCEED THE MAXIMUM WATTAGE RATING! (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)

Your installation is now complete. Return power to the junction box and test the fixture.

Note: Illustration (Fig. 1) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased.
