- Do not exceed the maximum wattage rating.
(Ne pas dépasser la puissance nominale maximale!)
- Before turning on, please follow the instruction manual step by step.

For use with Max 5V 3A power supplier

INSTALLATION

1. Carefully unpack your new lamp and place it on a smooth, flat surface to protect the finish.
2. Put the pole onto the sunking disc. Please follow below instruction before turning on the lamp.

CHARGING INSTRUCTIONS

This is a rechargeable lamp, there is 1pc 1800mA lithium battery inside pole. Please use a Max 5V 3A charger to charge product for the first time.

1. Charging: Please use standard Max 5V 3A charger. Insert the Type C charging cable directly into the charging interface at the bottom of the lamp pole.
2. Note: When charging, the power indicator on the lamp shade lights up in red and turns off when fully charged.
3. Remove the charger and Type C charging cable once fully charged.

FUNCTIONAL DESCRIPTION

This lamp has a touch switch on the top of lamp pole.

1. A short touch (<0.5 sec.): Turn on the ambient light 100%..
2. A short touch (<0.5 sec.): Turn on both of reading light 50% and ambient light 50%.
3. A short touch (<0.5 sec.): Only turn on the reading light 100%.
4. A short touch (<0.5 sec.): Adjust reading light brightness at 50%.
5. A short touch (<0.5 sec.): Adjust reading light brightness at 20%.
6. Repetitive cycle.
7. A long touch (>0.5 sec.): Turn off the light.

This switch has an auto-resume feature when power on, it will stay at the same brightness as the last time it was turn off.

The reading light shade can be adjusted as desired.
